

Revanshu Pusadkar

Full Stack Developer · UI/UX Designer

revanshu444@gmail.com · +91 9028173558 · Nagpur, India

[Portfolio](#) | [GitHub](#) | [LinkedIn](#)

Technical Skills

Frontend: React.js, Next.js, JavaScript, TypeScript, React Router, Tailwind CSS, GSAP

Backend & APIs: Node.js, REST APIs, GitHub REST API, Chrome Extension APIs, Gemini API

Design & Tooling: Figma, Adobe Photoshop, Spline (3D), Git, GitHub, Vercel

Hardware & Embedded: Arduino, Raspberry Pi, ESP32, hardware interfacing

Languages: JavaScript, Python, C

Projects

RepoStory — [Next.js](#) · [GitHub API](#) · [Gemini AI](#) · [Vercel](#) [↗](#)

- Built a full-stack web app converting any GitHub repo into a shareable visual developer story card; heuristic engine assigns developer archetypes and commit habit labels from API metadata.
- Integrated optional Google Gemini AI to auto-generate a developer narrative, keeping the core product fully functional without the AI layer.
- Deployed on Vercel with proper environment variable management; handles 5,000+ authenticated API requests per hour with graceful rate-limit fallbacks.

DinoDash — [Chrome Extension](#) · [Canvas API](#) · [JavaScript](#) [↗](#)

- Shipped a Chrome Web Store extension replacing the new tab with a 60fps canvas game, browsing analytics, and themed dashboards — all client-side, zero external libraries.

Code Vantage Website — [React.js](#) · [GSAP](#) · [Spline](#) [↗](#)

- 3D interactive agency website with GSAP scroll-triggered animations and Spline-embedded 3D elements for an immersive client-facing experience.

Personal Portfolio — [Next.js](#) · [Vercel](#) [↗](#)

- Multi-page portfolio with animated route transitions, WebP lazy loading, and full case study documentation for each project.
-

Experience

Executive Member — Technical Domain · The CodeBreakers, RCOEM

Nov 2025 – Present

- Contribute to the technical wing of a student developer community, collaborating on workshops, hackathon prep, and internal tooling projects.

Co-founder & Lead Developer · Code Vantage

Jun 2024 – Jan 2025

- Co-founded a web design micro-agency from scratch; acted as sole developer — responsible for client scoping, UI/UX design in Figma, and full-stack delivery.
- Built interactive client websites using React.js, GSAP animations, and Spline 3D; handled business operations including client acquisition and project management.

Member — Robotics & Aviation Club · Ramdeobaba University

Feb 2025 – Aug 2025

- Designed and built robotics projects using Arduino, Raspberry Pi, and ESP32 — interfacing sensors, actuators, and communication modules for club demonstrations.
- Managed all graphic design output to maintain a consistent visual identity across the club's digital and print channels.

Co-founder & Brand Lead · Freak Lifestyle

Apr 2023 – Jun 2024

- Co-founded a D2C streetwear brand; curated the product line and built the brand identity from concept to launch.
 - Drove all business operations and marketing, generating ₹1 lakh+ in revenue within the first year of operation.
-

Education

B.Tech in Electronics and Computer Science · Ramdeobaba University, Nagpur

2024 – 2028
